My most important job has been to raise three children. Now that they are mostly finished school, I have some time to give back to the community.

I believe that education and family are the two most important aspects of a child's life. My experience with the teaching staff has been mostly positive. I always felt that the staff had my child's best interests at heart. As long as a child feels validated in his/her education, then they will strive for excellence.

As a board member, I want to work with the staff and keep costs down for all tax payers. Only by working together can we provide the best quality education for our communities.
