

ADMISSION OF STUDENTS

The Board of Education provides the children and parents of the school division learning opportunities within the context of the Board's vision, mission, and beliefs.

All persons, according to *The Education Act, 1995* who have attained the age of six years but not yet attained the age of twenty-two years have the right to attend a school in a school division and a right to secure instruction appropriate to their age and level of educational achievement.

The student's right to receive instruction is the right to instruction in courses or programs approved by the Board. This instruction may be provided in the schools of the division, or in Board-approved schools or institutions outside the Board's jurisdiction.

The Board may provide programs and services to persons beyond those required by provincial legislation.

PROCEDURES

1. Resident Students

- a. The principal is responsible for the admission of students who reside in the attendance area of their assigned school.
- b. Requests for admission to schools from students living outside the normal attendance area must be submitted annually by May 1st to the Superintendent of Schools responsible for the receiving school for recommendation to the Director.
- c. In the case of students requiring special programming, the school attended is to be designated by the Superintendent responsible for Student Support Services.
- d. In communities with more than one school of the same grade configuration, (ie. Melfort with three K – 6 schools) attendance boundaries will be used to balance enrolment pressures and requests for exceptions will only be approved under extremely unusual circumstances.

Similarly, in communities where the existing school is a "feeder" school that channels students into a high school in a different community (ie. White Fox) exceptions will only be approved under extremely unusual circumstances.

- e. In adjudicating requests for students to attend a school outside of their attendance area, Superintendents will consider the following criteria in the following order of importance, to determine if transportation will be provided:
 1. Needs

Has the parent/student met with the school principal in their attendance area to ascertain whether their needs can be met at their assigned school?
 2. Curricular

Does the student have documented special educational needs that can be addressed in a quantifiably better manner in the requested school?

3. Family Support

Does the request keep students in the same school as any of their siblings?
Does the request support identified extended family needs arising from a “family breakup”?

4. Child Care

Where parents make arrangements for child care outside of their own school attendance area, they are not entitled to have their child(ren) attend the school serving the area where the child care services are provided. Similarly, they are not entitled to transportation arising from the location where the child care services are provided. They may, however, make an annual request to their Superintendent of Schools for alternate school attendance under the provisions of this clause and for transportation where the child care facility is currently provided with transportation for a bonafide resident pupil.

- f. In all other instances where a request is granted, transportation will not be provided. In all instances, where permission is granted or denied, appropriate and detailed correspondence will be provided and retained to ensure that a comprehensive record of all exceptions is kept on file with the Director of Education and the Superintendent in charge of student transportation.
- g. Any appeal of a decision of the Director shall be in writing to the Board of Education by the parent or guardian and shall specifically identify the section of this policy which they allege has not been followed.
- h. Resident adults who are, or exceed twenty-two years of age, may enroll in schools of the division with the approval of the Director of Education in consultation with the school principal.

2. **Kindergarten and Early Entrance**

- a. Children who are five years of age as of December 31 of the school year may be admitted to Kindergarten.
- b. Children who meet Ministry of Education criteria for a student with a designated disability may enter a school-based preschool program at an earlier age, provided the Director of Education or designate has approved such an admission.

3. **Non-Resident Students**

- a. Saskatchewan students, who are non-residents of the North East School Division, may be admitted subject to the following conditions:
 - i. The student or Saskatchewan school division wishing to enroll a student in North East School Division makes application for admission to the Director of Education or designate.
 - ii. Space, material and appropriate staffing are available to accommodate the student.
 - iii. Tuition fees are charged as outlined in the Regulations to *The Education Act, 1995*.

- iv. The non-resident student, or the sending school division pays a tuition fee of 100% of the computed amount including any additional fees for ESL or special education services.
 - v. The Director of Education or designate may waive the requirement to pay tuition fees.
- b. Exchange students may be admitted subject to the following conditions:
- i. The Director of Education or designate approves the request for admission.
 - ii. Exchange students who are not eligible for grant recognition are required to pay 100% of the computed tuition fee amount.
 - iii. Tuition fees are to be waived for students who are eligible for grant recognition. Eligible students are those engaged in a year of study in the school division as part of a reciprocal exchange program.
 - iv. A reciprocal exchange program is one where at least one student from the school division is benefiting from an equivalent time period of studies in another country and not paying tuition. This exchange may include a year of study at the secondary level immediately following grade twelve.
 - v. An exception to the definition of reciprocal exchange programs is a program where there are specific one-to-one exchange arrangements between foreign countries and the province.
- c. Foreign students may be admitted subject to the following conditions:
- i. Students request admission in accordance with North East School Division requirements and directions.
 - ii. Applications are completely processed and returned to the Director of Education or designate by May 15 for enrolment in September. Applications received after May 15 are to be considered for enrolment in February.
 - iii. Appropriate fees are paid when all documentation has been received and the application approved by the Director of Education or designate.
 - iv. Students who last attended school in a country other than Canada may, prior to admission to a school in the division, be required by the school principal to have their previous educational standing evaluated by the Ministry of Education.

4. *Transfers from Other Jurisdictions*

- a. A child who has attended Kindergarten or grade one in another school division during the current school year and who does not meet the admission requirements of the Board is to be admitted at the level to which he or she was entitled by the sending Board.
- b. All other students entering the school division are to be admitted and placed provisionally at the level to which they were entitled by their sending Board.
- c. Provisional placements are to be changed only in cases when the placement is found to be clearly inconsistent with the student's general achievement.

5. Documentation

- a. Principals are required to collect, assess, and record information required for the admission of students to schools.
- b. It is the responsibility of parents or guardians of students to provide information required by the principal.

Education in a Culture of Excellence
